- Squarell Scania cable (6692-S1)

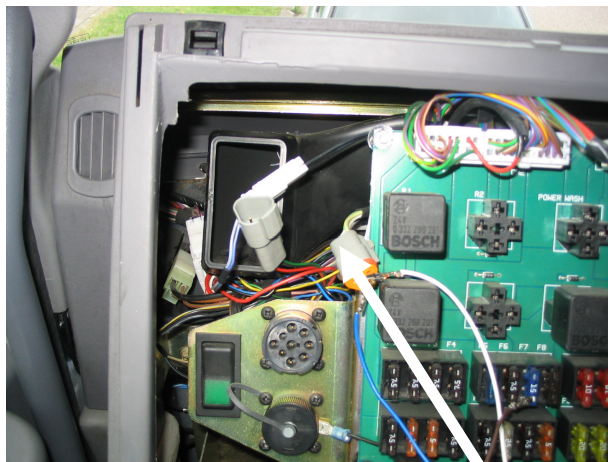

Tools:

- None

Where is the CANbus located

The ERF-ECX CANbus is located behind the diagnosis connector

- Remove the upper part of the dashboard on the passenger side
- On the doorside you will see the diagnose connector
- Behind the diagnose connector (remove the rubber of the air outlet) the triangle shaped connector can be found

Wire Colors

ERF Yellow	=	CAN High
ERF Green	=	CAN Low

Connect to the CANbus

- Use Squarell Scania cable(6692-S1)
- The black and brown wire can be removed (cut of) if you use the CANdiode

Pin 1	= Squarell Blue wire	= CAN Low
Pin 2	= Squarell White wire	= CAN high
